Dear Family,

During the next few weeks, our math class will be learning about measurement. We will learn to measure time, length, liquid volume, and mass.

You can expect to see homework that provides practice with telling time, finding elapsed time, and solving problems with measurement.

Here is a sample of how your child will be taught to find elapsed time.

**MODEL Find Elapsed Time**

This is one way we will be learning to find elapsed time.

Start time: 2:06 P.M. End time: 2:20 P.M.

**STEP 1**

Find the starting time on a number line. Count on to the ending time, 2:20.

![Number line showing 2:06, 2:10, and 2:20 with 4 minutes and 10 minutes added.]

So, the elapsed time is 14 minutes.

**STEP 2**

Add the minutes.

4 + 10 = 14

Another way to find the elapsed time is to use an analog clock.

**Activity**

Have your child practice telling time and finding elapsed time. Ask questions such as, “Soccer practice starts at 3:30 P.M. It ends at 4:20 P.M. How many minutes does it last?”

---

**Vocabulary**

- **A.M.** The times after midnight and before noon
- **elapsed time** The amount of time that passes from the start of an activity to the end of the activity
- **P.M.** The times after noon and before midnight
Querida familia,

Durante las próximas semanas, en la clase de matemáticas aprenderemos sobre mediciones. Aprenderemos a medir el tiempo, la longitud, el volumen de los líquidos y la masa.

Llevaré a la casa tareas con actividades que incluyen decir la hora, hallar el tiempo transcurrido, y resolver problemas con mediciones.

Este es un ejemplo de la manera como aprenderemos a hallar el tiempo transcurrido.

MODELO  Hallar el tiempo transcurrido

Esta es una manera de hallar el tiempo transcurrido.
Hora de inicio: 2:06 P.M. Final: 2:20 P.M.

PASO 1
Halla en una recta numérica la hora de inicio. Cuenta hacia adelante hasta llegar a la hora final, 2:20.

PASO 2
Suma los minutos.

4 + 10 = 14

Por tanto, el tiempo transcurrido es 14 minutos.

Actividad

Pida a su hijo o hija que practique cómo decir la hora y hallar el tiempo transcurrido. Usen las actividades familiares o las actividades programadas para practicar el tiempo transcurrido. Por ejemplo, “El entrenamiento de fútbol empieza a las 3:30 P.M. y termina a las 4:20 P.M. ¿Cuántos minutos dura?”
